# HOME CHOIR MAY SING IN EUROPE

Proposition to Take Portion of Tabernacle Singing Organization to Wales.

AT NATIONAL EISTEDDFOD.

And Concerts in Principal

The proposition of taking a portion of the Salt Lake Tabernacle choir to Wales to compete in the National Eis teddfod to be held at Camarthen, dur ing revived. The matter was first dis ed by the officials of the choir their trip to Scattle last summer,

their trip to Scattle last summer,

Yesterday morning Director Evan
Stephens took up the matter with the
presiding bishopric and was assured
that if such an undertaking were feasible no obstacles would be placed
in the way. Accordingly Prof. Stephens
made the announcement to the members of the choir at the regular rehearsal last night, and there was Gulte
a flutter in consequence.

Prof. Stephens told of the agitation
now being carried on by the Welsh people at Scranton, Pa., on the question
of sending two choirs to Wales to compete for the grand national prize.

It will be recalled that the Scranton
singers won first prize at the Chicago
world's fair and the Tabernacle choir,
the second. On this showing, it is
argued, the Salt Lake singers are eligible to be one of the competing American-Welsh choirs and it is thought that

argued, the Satt Lake singers are eigible to be one of the competing American-Welsh choirs and it is thought that the Satt Lake singers would stand a good chance not only of carrying off high honors at the national contest, but of evening up matters with their oldtime rivals.

oldtime rivals.

While no definite plans are forthcoming at this early date the proposition as contemplated embraces a big excursion to Europe at reduced ratiss which might assume proportions that would involve the chartering of a steamer to carry the 700 or more Utah tourists, including the selected voices, to Liverpool.

tourists, including the selected voices, to Liverpool.

In addition to the appearance at Camarthen concerts would be given en route at Denver, Omaha, Kansas City, Chicago and New York and possibly some other cities, while across the Atlantic a series of concerts would be arranged for in London, Liverpool, Manchester, Birmingham and other big

It is the intention to canvass the situation thoroughly and hold meetings from time to time with the object in view of working up the excursion which would take up six weeks or two

Judge Willis Brown, formerly of the Salt Lake juvenile court, is running for some office in Massachusetts and Governor William Spry received a letter

some office in Massacausetts and Governor William Spry received a letter Thursday asking about Brown's "past."
A. C. Nelson, superintendent of public instruction, also received a letter in regard to the work accomplished here by Mr. Brown.

Utah has been asked through Governor William Spry to contribute toward the success of the Panama-Pacific International exposition which is planned to be held in San Francisco two years from now. Homer S. King, president of the association which is promoting the exposition, sent a letter to Governor Spry Thursday and explained to him the necessity of cooperating for the success of the exposition. He says that clitzens of San Francisco will subscribe \$5,000,000 the state of California \$2,500,000 and the national government will contribute \$5,000,000 more, it is expected.

#### TWO NEW INVENTIONS

H. C. Drummond of Salt Lake has invented a milk cooler upon which a on Jan. 28. The purpose of the invention is to cool milk before placing it in cans. The milk is poured into the can at the upper part of the machine, and runs down upon a series of retinned copper coils, which are kept constantly cooled by means of a stream of water. After passing these spiral coils the milk runs out into a can at the bottom of the machine. The water is forced into the cans from the bottom, passing upward and out at the top, thus keeping the warm water constantly at the top. The machines are made in several sizes, the smallest one cooling 60 gallons an hour and the largest cooling 500 gallons an hour Another invention by Mr. Drummond is a brace and bit which will bore a square hole. A company for handling the invention has been formed, with offices in the Eagle block. The company is officered as follows: C. L. Jacobson, president; Evan E. Rich, vice president; W. J. Blake, treasurer, and H. C. Drummond, secretary and general manager. on Jan. 28. The purpose of the in-vention is to cool milk before placing

#### INSPECTED MEAT.

J. W. Treman, city veterinarian, filed his monthly report Thursday showing that there were 1,239 cattle slaughtered in Salt Lake 2,112 sheep, 354 hogs and 55 calves. These were all inspected besides 77 dressed hogs and 209 dressed calves. Sixteen cattle were placed under quarantine, 15 being afflicted with tuberculosis and one was suffering from actinomosis. There were 13 sheep retained during the month, of which 11 were bruised, one had jaundice and one had caseous lumphadenitis; seven hogs were held, five for tuberculosis and two for gangrenous pneumonia. his monthly report Thursday showing

#### FROM DAIRYMAN'S VIEW.

Lorenzo Hansen Says Quit Knocking Or Farmers Will Go Out of Business.

"As a dairyman, I deplore the high prices of milk and butter, but it is only in keeping with the high price only in keeping with the high price of everything else," said Lorenzo Hansen of Logan, manager of the Cache Valley Condensed Milk company when seen at the New Windsor today.

"But the fact is, in comparison with other commodities, milk and butter are selling today lower than any of them. As compared with former prices, of course the figures we have to pay today seem excessive. We buy these things every day or every few days, and we are brought face to face with them all the time and we are forced to pay for these common, everyday necessaries. Things we have to buy once or twice a year, though the increase is much greater, we are not so impressed with—clothing, utensils, or the like.

"Yes, prices are much higher, but Hand the product of the produ

have you stopped to figure out that expenses have increased proportionately?

expenses have increased proportionately?

"Five years ago I purchased bran for \$11 a ton at the Cache Valley mills; today I must pay \$25 for the same thing—over double. Five years ago the farmer got \$5 to \$7 for his hay; today he gets \$12 to \$15 a ton. And the milkman must pay this 100 per cent increase for cowfeed, or feed his cows hay which he could seil at such high prices, which is one and the same thing. Five years ago the farmer got 60 cents a bushel for his wheat, today he gets \$1, and 10 years ago, if you pardon my going back that far, I soid my entire crop of wheat for 35 cents a bushel."

pardon my going back that far, I sold my entire crop of wheat for 33 cents a bushel.

"Butter seems high: It is always high in winter when high priced hay and grain must be fed, but the day the dairy cows are turned out on grass there is a drop to 35 cents or even as low as 30 cents a pound. It will be the same next spring.

"I would like to say this, however. It is my opinion that if the newspapers continue to aid the public in knocking along these lines, I predict that the farmers now engaged in the dairying industry will abandon it and turn to something more profitable and more agreeable, and thereby sound the death knell to one of the most important resources of the state of Utah. You put the farmers out of business and the state cannot prosper. They are the foundation and what have you? "We dairymen are paying 38 cents to the farmers for their butter fat. I have paid more than that this winter, in years past when feed was cheen and butter selling low, we could not afford to pay near that price. I should like to emphasize this fact: if there are unnatural profits being taken today on milk and butter, the farmer and the manufacturers' profit basis today is just what it was 10 years ago—no more and no less. The general rise in everything is the real cause."

#### EAST FIRST SOUTH DEAL.

Old St. Mark's School Property

The Utah Investment & Trust com pany on Thursday bought from G. Schumacher, of Los Angeles, the old Schumacher, of Los Angeles, the old St. Mark's school property, opposite the police station, for \$30,000. The property has a frontage of 53 feet on east First South street and is 175½ feet. In depth. The deal was made through the A. Richter agency. The building is at present occupied by the Volunteers of America for a lodging house and dispensary. The purchasers intend to make improvements upon the property but to what extent has not as yet been determined. Comparatively new in the field, the Utah Investment & Trust company is rapidly assuming a position among the leaders in actual investments. Last year it was very successful in its op-

the leaders in actual investments. Last year it was very successful in its operations and declared a good dividend. Many of the stockholders of the company are connected with the Rocky Mountain Bell Telephone company. The president is A. S. Peters and the secretary A. W. Steele.
